

DAY 13

@Dream_Chasers_org

TIME TO

PLAY

Sit down with your feet flat on the floor. Place a crumpled up piece of paper between your knees. Let your knees drop the paper and quickly lift your feet off the ground to try to catch the paper with the bottoms of your feet. Your feet cannot stay on the ground to catch the ball of paper.

TALK ABOUT IT

Ask someone, "What's an obstacle you had to overcome last week?"

BLOW YOUR MIND

If each bee lands on a flower, one bee doesn't get a flower. If two bees share each flower, there is one flower without any bees. How many flowers and bees are there?

TIME

TO

MOVE

Figure out how high you can jump. What's the highest thing you can reach? Can you keep getting higher?

*Make it harder by just standing and jumping instead of running to jump. How high can you jump without even taking a step?
