

DAY 5

Take the 2 things you wrote down that really matter to you (or something that represents them). Build and decorate some sort of box or container to put them in. Make it out of whatever materials you want. Put the 2 things in the container and hide it somewhere to open at the end of the school year (like a time capsule).

OR

Walk around your home and see if you can create a list of the 5 things that have the most value to your family. They might not necessarily be the things that cost the most or are the most expensive (but they might be). For example, an old box that was your great grandmother's might have more value than the brand new TV.
